

Dear Valued Customer,

September 9th, 2024

This letter serves as your formal notification that Specim is initiating the End-of-Life process for the **listed** products (see below). Due to unforeseen component EOL we need to ramp down the IQ product faster than planned. The key milestones are listed in this letter. The objective of providing this notice is to allow for appropriate planning and the opportunity for last time purchases, as well as to suggest alternative products. For more information on Specim's end-of-life policy for Hyperspectral Imaging products, please visit <http://www.specim.com/EOL>

The standard warranty terms will be honored for all units shipped up to the last shipment date (end of delivery). Orders placed between the Announcement Date and the Last Order Date are non-cancelable and non-refundable.

End of Life Products:

| Product Category | Product Name | Product Code |

** LIMITED AVAILABILITY. Availability ends as soon as all products from stock are sold. This may happen before or after an estimated LOD 30th June 2025.

*** End of delivery date may vary based on product availability

**** Maintenance and End of support period will last until 9th September 2029. We strive to maintain adequate inventory and resources for existing customers, please be advised that due to potential shortages of components and parts, we cannot guarantee the availability of materials required for repairs or maintenance services over the entire periods until 2029. The repair and maintenance needs will be reviewed separately case by case basis and a further plan will be communicated to customers. Calibrations capabilities will be available until 1st Sep 2029.

Specim reserves the right to amend, alter or change any provision of this EOL announcement. Global material availabilities and component shortages might cause restrictions for deliveries and maintenance.

Suggested Alternatives:

| EOL Product Family | Suggested Alternative |
|--------------------|--|
| Specim IQ | LabScanner or Rotary Scanner with FX10 |
| | |
